

MARK LOEFFLER
DESIGN CONSULTING LLC

Lighting & Sustainable Design

Mark Loeffler, IALD, LEED Fellow has practiced lighting and sustainable design for more than 30 years. Originally a theatrical lighting designer, he shifted into architectural lighting, daylighting, and green design while finishing his graduate studies at Parsons School of Design. Advocating for joyful, invigorating, healthful, and sustainable design, he has consulted on notable academic, healthcare, research, corporate, institutional, and recreational buildings across the US, predominately in the Northeast. He teaches and lectures widely for universities and professional conferences.
